Career Objective

I am a Frontend Developer who loves building simple, user-friendly websites. I enjoy learning new web technologies and using them to create better and faster websites. My goal is to work on exciting projects where I can improve my skills and help users have a great online experience.

Skills

Frontend: HTML, CSS, Tailwind CSS, JavaScript, React.js
Backend: Node.js, Express.js, MongoDB, SQL
Tools: VS Code, Firebase, GitHub
UI/UX: Figma, Canva
Programming Languages: Python, PHP
Interpersonal Skills: Team Leadership, Effective Communication, Problem Solving, Time Management, Adaptability

Projects

1. Q-bitlearn – A Learning and Teaching Platform

A platform for learning and teaching. To revolutionize how educational institutions, tutors, and students interact. It aims to make skill learning and class management more efficient.
Live Site | GitHub Client | GitHub Server

- Browse and buy courses.
- Be a teacher and sell courses.
- User role system for student, teacher and admin.

2. WhereIsIt – Lost and Found Platform

WhereIsIt is a Lost and Found Website designed to connect individuals who have lost personal belongings with those who have found them. It is for reporting and finding lost items.
Live Site | GitHub Client | GitHub Server

- Users can report lost or found items.
- Search and filter lost and found listings.
- Lost and found item history.

3. Crowdcube –A Crowdfunding Application

A modern crowdfunding platform designed to help individuals and organizations raise funds for various projects, causes, and creative ideas.
Live Site | GitHub Client | GitHub Server

- Browse and donate to verified campaigns.
- Real-time donation tracking.
- Beautiful Slider Design.
